PROGRESSIVES TO CONTROL

Says Notwithstanding Can-

Follette Out of Party
Reforms will Prevail

CHICAGO, Nov. 8.—Senator Al-
bert B. Cummins of Iowa came out
of the west Saturday night and open-
ly defied Aldrich, Cannon and Payne
—whom he termed the Three Little
Tallors of Washington—to do their
worst in reading the progressives out
of the republican party.

Before a notable gathering of Chi-
cago republicans at the Marquette
club Senator Cummins answered with
stinging personal shafts the attack
which Uncle Joe had made upon him,
personally, in Iowa and the more re-
cent Elsin speech of the speaker.

The Iowa senator developed at
length the entire program of policy
which the insurgent republicans have
agreed upon—party organization, the
tariff, currency reform, and railway
rate regulation. It was the first
booming of the big guns in the tre-
mendous battle which is now on be-
tween the progressives and the stand-

TO START THE FIGHT
CHICAGO, Nov. 8.—"The
battle between the 'insurgents'
and 'standpatters' will be re-
sumed the instant congress as-
sembles and it will continue
during the entire session," said
Senator Cummins today. He
declared the insurgents are
eagerly awaiting President
Taft's message, believing it may
determine some big points of
issue between the progressive
and the Cannon-Aldrich-Payne
crowd.

"The issue is clear between
us," he declared, "and everybody
is ready to fight it out."

Senator Cummins will begin
work this week looking to the
immediate appointment of a
commission to revise the tariff
"according to the pledges of the
republican national platform."

patters from ocean to ocean—so in-
tended by Senator Cummins and so
accepted by republicans generally.

Aldrich Quiet; Cummins Thunders.

Senator Aldrich, entering into the
details of the monetary commission,
was speaking before the Commercial
club down in the loop at the same
moment that Senator Cummins was
hurling his brands at the Aldrich-
Cannon-Payne triumvirate. The
Rhode Island senator, titular head
of the upper branch of congress was
clinging closely to national finance.
He said nothing which might have
given a joint debating tinge to the
simultaneous appearance of the east-
ern and the western leaders in Chi-
cago.

"Let it be understood, once and for
all," declared Senator Cummins in
his address, "that we accept the chal-
lenge and are ready for the fight."
Thus calling the insurgents to arms,
he proceeded to stipulate in detail
the vicissitudes of the insurgents in
Washington, and drew a diagram of
the contest which will be made by
them for control of the party organi-
zation.

"We ask no quarter and we shall
give none," cried Senator Cummins.
"We intend to reduce the influence of
Aldrich, Cannon, and Payne to that
point where they shall find it neces-
sary to consult rather than to com-
mand."

No Alliance with Democrats.

The only qualification which the
Iowan set out was that the fight shall
be made within republican lines. He
pledged the insurgents to the sup-
port of republican candidates and re-
publican measures, declaring em-
phatically that, while he possesses
great personal admiration for some
of the democratic senators and repre-
sentatives, "collectively, they are
more unfit to manage the affairs of
a great country than ever before in
the history of the democratic organi-
zation."

For the insurgents, Senator Cum-
mins affirmed that they do not intend
to accept the Payne bill as final in
the efforts to revise the tariff but he
furthermore said that scientific and
honest tariff revision is not possible
until an honest tariff commission has
honestly compared the cost of produc-
tion of commodities at home and
abroad. He offered this as the es-

ALDRICH FOR CENTRAL BANK PROMISES MONETARY REFORM

CHICAGO, Nov. 8.—Senator Nel-
son W. Aldrich, chairman of the na-
tional monetary commission, told
the members of the Commercial club
at a banquet Saturday night in the
Congress hotel that the comprehensive,
scientific plan for the changing of
the American monetary system, both
as to note issues and the organization
of credit, is to result from the work
of the commission.

Leans to Central Bank

The whole trend of his address
showed that he is a believer in the
central bank idea, though he did not
say so in set terms. But he dwelt
upon the fact that in other countries
it has been generally determined that
note issues should always be under
government control and that this can
only be had through a central bank.

He also pointed out the widespread
dissatisfaction with the existing Am-
erican system of note issues.

Analysis of Senator Aldrich's

speech, which is the first to be made
on the tour which he is taking
through the west to meet financial
experts and business men and to
make addresses on the problems be-
fore the commission, showed the fol-
lowing additional points:

The monetary commission will
make public a vast amount of infor-

mation it is gathering on financial
systems all over the world and will
invite opinions from American finan-
cial experts on what kind of a
plan should be adopted by the com-
mission.

No existing plan can be adopted in
its entirety by the United States.
No plan will be submitted at the
present session of congress, but at
the third session of this congress a
plan will be offered.

Shows Changes Needed

The financial panic of 1907 proved
conclusively that there must be
changes in the legislative provisions
in regard to note issues and that bank-
ing methods and credit organization
must be improved.

It will be impossible to establish
a credit organization in this coun-
try that will interfere with or control
existing banks.

Any plan to be adopted must be
kept out of the reach of partisan po-
litics.

The branch banking system can
never be adapted to the United
States.

Any form of organization which is
to be credited must serve the whole
country and all sections, so that it
could not be used to build up one lo-
cality.

Married on Sabbath
Wait for Tolling of
Eerie Hour

Not wishing to be married on a
Sunday and not being able to secure
a day off in which to have the cere-
mony performed, John M. Staley, a
telegraph operator employed by the
Northwestern railroad at Baraboo,
and Miss Margaret Anderson, daugh-
ter of Mr. and Mrs. Frank Anderson,
1524 Vine street, were quietly united
in marriage at the parsonage of the
West Avenue M. E. church at 12.02
this morning, by Rev. Cunningham.
The ceremony was witnessed by im-
mediate relatives and friends.

The happy couple left at once for
Baraboo where they will make their
future home.

CELLULOID FACTORY FIRE KILLS NINE

NEW YORK, Nov. 8.—Nine per-
sons lost their lives today and five
were seriously injured when fire
destroyed the celluloid factory of
Robt. Morison & Sons, Brooklyn. Six
of these were caught like rats in a
trap behind barred windows on the
ground floor and their frantic ap-
peals for help and shrieks of agony
when the fire finally reached them
could be heard for blocks.

A dozen men employed in the fac-
tory of Lehn & Fink, adjoining
vainly strove with bars and hammers
to make a passageway for the doom-
ed six but were finally driven off by
the flames and smoke, leaving the
window only when their clothing was
ablaze.

The fire was one of the worst that
the Brooklyn firemen have had to
deal with for several years.

PIG LIQUOR MAKES FIGHT

HIBBING, Min., Nov. 8.—Two fac-
tions of Italian miners, filled with
blind pig liquor terrorized Stevenson,
nine miles southwest of here, late
yesterday afternoon in a fight during
which one was shot to death while
trying to stop the row, three others
were wounded and two were arrested.
Others, also, probably wounded, es-
caped before the officers arrived.

ELKS TO GIVE A MINSTREL SHOW

for the Local
Lodge

The Elks will give a minstrel show
some time this winter, in the new
Majestic theater building and from
those who know comes the statement
that it will eclipse anything in this
line ever put on by amateurs in this
city. At present no definite arrange-
ments have been made. The commit-
tee in charge consists of Albeck
Hegge and Reuel Russell, two well
known local vocalists.

The complete list of singers, who
are to take part in the show, have
not been secured and nothing definite
will be known about the enter-
tainment until after the first re-
hearsal about the middle of January.

LEWIS AGAIN SAYS HE IS A CANDIDATE

RACINE, Wis., Nov. 8.—Probably
for the purpose of adding to his per-
sonal platform, Capt. Wm. Mitchell
Lewis of Racine, today reiterated the
announcement of his candidacy for
the republican nomination for gov-
ernor of Wisconsin. In a public state-
ment declaring his candidacy he says
he will make the race on the ground
that what Wisconsin needs is a busi-
ness administration. He also declares
he is for further reduction of tariff
duties.

Captain Lewis was center rush and
captain of the Yale football eleven
in 1890 and was chosen by Walter
Camp as all-American captain.

WARDEN'S WORK IS HELD A VIOLATION

MADISON, Wis., Nov. 8.—(Spe-
cial.)—The attorney general has ruled
the deputy game warden who receiv-
ed money from Stone to further Ste-
phenson's candidacy committed a vi-
olation of the civil service law. An-
other opinion holds it not inconsis-
tent with the civil service for a state
employee in the competitive class of
classified service to act as a county
chairman for a political party.

TRY TO SHORT CHANGE HER

After Victimitizing Woman
Next Door, but Miss
Larson Grabs Her
Money

Smooth short change workers, us-
ing the old system, the short change
racket, which for years has been
worked in cities all over the United
States, Saturday evening victimized
a number of downtown shopkeepers
and business men.

Shortly after nine o'clock, two
strangers entered the Theater Candy
store and made a five cent purchase.
One of the men tendered Miss Laura
Larson, the proprietress, a ten dol-
lar bill in payment therefor. Miss
Larson went to the cash register and
made change for the bill, but just
as she deposited this on the
counter, the man picked up the five
dollar bill, which formed a part of
the change, at the same time declar-
ing that he believed he had small
change in his pocket. He reacted
for the ten dollar bill which he had
originally tendered at the same time,
but Miss Larson was too quick for
him. She informed him that she had
heard of the game before and advis-
ed him to get out quickly and avoid
trouble.

Both of the strangers were highly
insulted, declaring that they had
been outraged. Miss Larson refused
to talk to them and they made their
departure.

Miss Larson then communicated
with the central police station over
the telephone and related the in-
cident. Detectives McGrath and Vol-
lent responded a few minutes later,
to learn that the same two men had
successfully worked their graft upon
Mrs. John Fisher, who conducts a
restaurant in the building adjoining
Miss Larson's store.

Victimize Mrs. Fisher

Here they had entered together and
of them had deposited a two dollar
bill and purchased a five cent pack-
age of tobacco. When Mrs. Fisher
made change for the two dollars, the
man picked up a dollar bill which
was part of the change, and then
declared that he had small change.
He accordingly gave the woman a
silver dollar, receiving in change
ninety-five cents, and picked up his
two dollar bill and departed.

Both Miss Larson and Mrs. Fisher
gave the police a good description
of the two men, and later in the eve-
ning were informed by the police
that the men were under arrest. They
went to the police station, where Miss
Larson positively identified the man
who had visited her store. Mrs.
Fisher thought he was the man who
had victimized her, but says she is
unable to positively identify him.

FOUND DEAD ON ROOF OF BUILDING

OKLAHOMA CITY, Okla., Nov. 8.
—Officers today are trying to solve
the mystery surrounding the murder
of Roy D. Gannon, a real estate deal-
er, whose body was found on the
roof of a ten-story building here.
His head almost severed from his
body by a rope which had been
placed around his neck and twisted
with a bar of iron.

The police are seeking a blonde
woman seen with Gannon in an au-
tomobile Saturday afternoon.

Gannon drew a thousand dollars
Saturday afternoon and this money
could not be found either in his
pockets or his office, which was in
the Campbell building on the roof
of which the body was found.

FAILS TO HIS DEATH THROUGH SKYLIGHT

ROCKPORT, Mo., Nov. 8.—His
heart pierced by a splinter of glass,
Charles F. Bischoff, chief of the vol-
unteer fire department here, is dead
following a peculiar accident at a ho-
tel fire. Bischoff was directing the
work of the department from the roof
of the second story of the Chamber-
lain hotel. He stepped back and his
foot struck a glass skylight. He lost
his balance and crashed through. A
long splinter of glass from the sky-
light pierced his heart as he fell full
length on the floor. He had just
strength enough to stagger out of
the kitchen door to the street. The
hotel was destroyed.

ROOSEVELT CABLES HE IS QUITE WELL

ROME, Nov. 8.—Mrs. Theodore
Roosevelt today received a cable
message from her husband, ex-Presi-
dent Roosevelt, dated Nairobi, stating
that there is no truth in the rumors
that he is ill or has met with an ac-
cident. He adds that he is perfectly
well.

LEADERS OF NEW YORK'S 400 ARE DIVORCED AT SECRET HEARING

COL. AND MRS.
JOHN JACOB ASTOR

NEW YORK, Nov. 8.—Mrs. John
Jacob Astor, the society leader, was
granted an absolute divorce from her
husband, John Jacob Astor, by Jus-
tice Mills in the supreme court here
today. The papers in the case are or-
dered sealed.

The proceedings consumed less
than one minute in open court and

MRS. ASTOR INCOG

day granted a divorce from her
husband in New York, is stay-
ing at French Lick Springs,

where she registered at the ho-
tel under the name of Mrs. Aus-
tin of Red Bank, N. J. She was
recognized by guests at the ho-
tel by means of pictures pub-
lished in the newspapers.

It was plain nothing had been left
undone to prevent any of the details
of the divorce action becoming
known. Justice Mills was seated on
the bench when John L. Cadwalader
of the law firm of Strong and Cad-
walader of New York, appeared be-
fore him and handed over the desk a
bundle of papers.

"I present the report of C. H.
Young, appointed referee by this

court, to hear and determine the ac-
tion for absolute divorce brought by
Mrs. John Jacob Astor against her
husband, Col. John Jacob Astor, and
ask that it be confirmed."
Justice Mills nodded. "I have read
the report as filed with the court,"
he said, "and believe it warrants the
relief desired."

"You, Mr. Cadwalader, will draw
the decree in favor of your client,
and I will sign it."

Cadwalader bowed and stood as
though waiting for something.

"Oh, yes," broke in the justice
"all of the papers in this case are
hereby ordered placed under the
seal of the court."

This brought a laugh from the
few lawyers in the court room.

Neither Mr. nor Mrs. Astor were
in court when the decree was grant-
ed. All of the work had been taken
care of by their attorneys and there
was no hitch in the prearranged plan.

Who was named as correspondent is
not known and probably never will
be, although there is a strong rumor
that the affair was entirely arrang-
ed for and the correspondent provided
so that the persons who were con-
sidered at the outset of the action
might be protected. It is reported
that Mrs. Astor received a jump sum
of \$10,000,000 in lieu of alimony
and she will have the custody of
their daughter, while their son will
remain with his father.

NORMAL RECEPTION FOR WHOLE PUBLIC

People Are Invited to In-
spect New Normal School
Building Wednesday
Evening

The board of trade committee
which has charge of the city's end of
the dedication exercises at the new
La Crosse normal school Wednesday
evening, is very anxious that the
public shall understand that a gen-
eral invitation is extended to all
citizens to be present at the recep-
tion which will be given for visiting
regents, school superintendents and
educators at the new building Wed-
nesday evening.

In the afternoon the dedication
will be under the auspices of the
normal school committee, after
which the regents and visitors will
be turned over to the board of trade
who will entertain them at a 6 o'clock
dinner at the parlors of the Univer-
salist church.

The dinner will be followed by a
grand concert at the auditorium.
Here Congressman John J. Esch will
be the speaker of the evening. Fol-
lowing the concert the people's re-
ception will be held, and there will
be committees on hand to conduct
visitors through the structure.

Everybody is urged to attend the
afternoon and evening exercises. Spe-
cial invitations have been sent to
the following classes of persons:

First, the members of the legisla-
ture who gave La Crosse the state
normal school.

Second, the regents of the normal
schools and their wives and their
wives.

Third, patrons of the school. These
include the parents of the students
in the normal school department and
the parents of the children in the
training school department.

Fourth, superintendents and teach-
ers in La Crosse and vicinity.

Louis Larson, Formerly of
La Crosse, Alleged to Be

"MUST BE OFF MY TROLLEY"

Larson Wires and Offers to
Come Back to the Aid
of His Perplexed
Firm

That Louis Larson, formerly an
officer in the old Wisconsin Lumber
and Manufacturing company of this
city, and partner in the defunct La
Crosse Lumber firm of Larson, Han-
son and company, whose mysterious
disappearance at Kalamazoo, Mich.,
where he was an officer in the Kala-
mazoo Interior Finish company baff-
led the authorities and gave his
firm and friends and relatives there
much concern about Oct. 20, is an
embezzler and faces shortages in all
amounting to \$150,000, is the sub-
stance of a news dispatch to The Tri-
bune today.

Larson had a business engagement
on the day he departed and his fail-
ure to meet this caused suspicion.
It was later learned that his wife was
totally ignorant of his whereabouts
or actions and that he had left her
with but \$1.50 in the house.

Experts were at once put on the
books, with the result that Saturday,
discrepancies were found amounting
to over \$100,000. Officers of the
concern would make no statement
but creditors of the concern have
talked freely. Today Floyd C. Sweet
the receiver, took charge of the in-
vestigation and it is stated that the
liabilities are steadily increasing and
will reach \$150,000.

Saturday a telegram was received
from Larson, who is at Denver. The
dispatch read: "C. H. Dykhouse, vice
president, must have been off my
trolley. Can I come back and aid
you? Louie."

Mr. Larson was wired to return
immediately. He was in exclusive
charge of the business affairs of the
company and will alone be able to
untangle much of the mess.

The firm has gone into involuntary
bankruptcy with assets of about
\$190,000 and liabilities close to
\$340,000, according to latest reports.

Larson lived in La Crosse and was
numbered among the prominent busi-
ness men here in the early '80s.
With a partner by the name of Han-
son he organized a lumber firm un-
der the name of Larson and Hanson
and company. Later this concern
became a stock company the principal
stockholders being Larson, Hanson,
Mons Anderson and I. N. Perry of
the old Union National bank, who
left the city to accept a position with
the Continental National bank at Chi-
cago when the Union National bank
was purchased by the Batavian Na-
tional.

In 1885 The Wisconsin Lumber
and Manufacturing company went to
the wall with a crash. All of the
stockholders lost heavily, the biggest
losers being Mons Anderson and I.
N. Perry. Son after this Larson
went to Kalamazoo, where he secured
the position with the Kalamazoo
interior finish company.

SPARTA DEFEATS

MAUSTON 45 TO 0
SPARTA, Wis., Nov. 8.—(Spa-

cial.)—The rejuvenated Sparta high school team toyed with the Mauston high school football eleven in the game at the Sparta fair grounds, Saturday afternoon defeating them by the score of 45 to 0.

Sparta played straight football in the first session and scored 22-0 and in the second half Sparta played with more open work, the forward passes netting big gains. As a whole the team looks good against La Crosse for the Thanksgiving day game and with the lineup as now changed and the hard work which the team will do from now until the 25th day of November they should be in great shape for the crucial contest.

The lineup was as follows: Sparta—Enkhausen, center; Marfield, quarter; Ewers, fullback; Williams, left half; Abrahamson, right half; B. Evans, right tackle; Walters, left tackle; F. Evans, right guard; Powell, left guard; Beebe, right end; Abrahamson, left end. Mauston—Jones, center; Edwards, quarter; Bradley, fullback; Delmore, left half; Winsor, right half; Turner, right tackle; Boyle, left tackle; Allaby, right guard; Chowe, left guard; Severance, right end; Casey, left end.

CHICAGO, Nov. 8.—The University of Chicago football team overwhelmed their old-time rivals from Northwestern by the score of 34 to 0 on Marshall field Saturday. At no time during the game did Northwestern have a feeble opportunity to score. The speedy and varied attack of Chicago proved too much for their slower and more deliberate opponents. The Chicago forwards had the charge on their opponents at every stage of the game and at no time did the Northwestern team show any unanimity of action.

The Chicago backs were far superior to the backfield of the Northwestern team. Long end runs by Rogers, Menaul, Davenport and Sanger, combined with the terrible line smashing of Worthine and the brilliant generalship and kicking of Capt. Page proved too formidable a combination for Northwestern.

Chicago scored its first touchdown after about 10 minutes of play and after that it was only a question of how large the Chicago score would be. Chicago scored 17 points in the first half, and after gathering 17 more in the second half, began to play a defensive game and made no more attempts to score.

Old Style Game

Northwestern depended largely upon the old-fashioned smashing game, using the tandem formation as the basis of a majority of their offensive plays. In the majority of plays the Northwestern attack was slow and uncertain and gained no impetus before it hit the line.

Now and then Manley, Johnson and August would smash through the Ma-

roon line for a substantial gain, but oftener the Maroon forwards would get under the play and spoil it before it was fairly under way. If anything the Maroon linemen were too eager as they were penalized times innumerable for offside violations.

Touchdowns—Crawley, Worthine, 4; Sunderland, Goals—From touchdowns: Worthine, 2; Kelley, 2. Officials: Referee, Haddon, Michigan. Umpire—Kelley, Princeton. Field judge—White, Illinois. Head linesman, Fishleigh, Michigan. Time of halves, 35 minutes.

Michigan Beaten

ANN ARBOR, Mich., Nov. 8.—Leaving every one of Yost's much-talked of plays in storage Michigan suffered a defeat by Notre Dame, the final score being 11 to 3. As the tally

represents it was a clean-cut defeat, Yost's men being outplayed in every department of the game by the proteges of "Shorty" Longman, the former Michigan star full back. This is the first time that Yost has ever been defeated at the gridiron game by one of his former pupils.

The form which Michigan showed against Syracuse was entirely lacking, both defensive and offensive play being ragged and showing up conspicuously against the consistent work of Notre Dame. The inability of Ryan to negotiate field goals was all that saved Michigan from a more severe defeat, as the Hoosier right half missed two easy attempts. Allardice's trusty boot in the second half also aided in keeping down the score.

Michigan not only lost the game, but also one of its stars. Boreleske

EAU CLAIRE BEATS LOCALS 39 TO 12

Superior Weight and the Crippled Condition of the La Crosse Team Disasterous

PLAY OLD STYLE FOOTBALL

Eau Claire Wins on the Old Style Game, Using Their Speediest Players

Superior weight, better generalship and an excellent demonstration of the old style of football won for the Eau Claire team Saturday at Eau Claire by the overwhelming score of 39 to 12. The Eau Claire forwards had the charge on the La Crosse team the greater share of the time and their line held like a stone wall for the longest share of the battle. The crippled condition of the team was greatly responsible for the score but at its best the local school could hardly hope for a victory.

The first La Crosse touchdown came as the result of a triple pass

was removed from the line-up early in the game and will be out of it for the remaining battles. The clever end received a broken collar bone at the hands of the Catholics, and so put a crimp in Michigan's chances of defeating Penn and Minnesota.

Several foreign critics who watched the game, including Walter Camp, assert that Michigan did not exert herself to win.

Harvard Beats Cornell

CAMBRIDGE, Mass., Nov. 8.—It was Harvard's plunging and "help-the-runner" attack and her stone wall defense that defeated Cornell in the first meeting at football between the two universities in 12 years on Soldiers' field 18 to 0. One touchdown was made in the first half after 18 minutes of play, and two more were added in the second, with goals from all three. Twice in the first half Cornell managed to struggle inside the Harvard 30-yard line only to be hurled back.

There were 15 distinct Crimson marches toward the Cornell goal in the scrimmages in which Harvard had the ball, 453 yards were covered.

with a long and one of the most cleverly executed forward passes ever seen at Eau Claire.

As Winona defeated Wabasha 25 to 6 Saturday, there is no possibility that the local aggregation will be defeated when it meets the Wabasha eleven next Saturday at the local League park.

The Game in Detail

La Crosse kicked off. Ostie returned 20 yards, Goethel for 3 yards. Craig nets 5 yards. Goethel makes first down. La Crosse gets ball, held for downs, punt 30 yards. Craig 4 yards, Craig 2 yards. La Crosse secures ball on fumble. La Crosse held. Gelein punts 30 yards. Buch makes most sensational open field tackle of the day. Volkman intercepts a forward pass and tears through for 10 yards. Ed Gelein 10 yards. Volkman makes first down. Lange sent over for first touchdown. Howie fails goal. Eau Claire kicks. La Crosse nets 10 yards and punts. On an inside kick Ostie makes a sensational 30 yard run for a touchdown. Howie kicks goal. La Crosse kicks off. Ostie returns 30 yards. La Crosse gets ball on an inside kick, forced to punt. Eau Claire punts 30 yards and after making an exchange of punts Ostie intercepts a forward pass and sprints 35 yards for a touchdown. Howie kicks goal. Eau Claire kicks off but time is called with the ball in La Crosse's possession on their own 35 yard line. Score at end of first half: Eau Claire, 17; La Crosse, 0.

Second Half

Eau Claire kicks. La Crosse rips off 10 around end, La Crosse punts. Gelein returns 10 yards. Volkman rips off 10 yards. La Crosse braces Lange through for 10 yards. Goethel 5 yards. Lange pushed over for touchdown. Howie fails goal. La Crosse kicks. Gelein returns 10 yards and punts 40 yards. La Crosse nets 5 over tackle. La Crosse punts Volkman rips off 10 yards over guard. Eau Claire penalized. Gelein punts. On the most sensational and longest pass ever seen in this city to La Crosse scored touchdown and kick goal. Eau Claire kicks off. La Crosse loses ball. Volkman through for 10 yards. Goethel scores another touchdown. Howie fails goal. La Crosse kicks off and after another exchange of punts La Crosse recovers the ball and makes their last touchdown. Eau Claire kicks off and during remainder of half score two touchdowns and kick two goals. The latter part of this half was marked by Wickham's plunges and Buck's long run for a touchdown.

THIS TOWN IS "RIGHT"

The people of every city, if they
are the right sort, think their town
is "right." They think their public
institutions are right and that their
people are right. They think, in fact,
that they are all right. They think,
of course, that their stores are
"right."In La Crosse this feeling prevails,
and as to the stores, it doesn't call
for a stretch of the imagination.
This city has splendid stores. They
will "stack up" with the stores in
many cities of more than one hun-
dred thousand population. They are
nice looking stores but that is not
all. They afford a genuine market.
They are run on scientific business
principles by men who can see a dol-
lar behind a penny every time. They
are stocked with the best goods and
these goods are sold at reasonable
prices. The managements are all
courteous and painstaking, apprecia-
tive of the patronage they receive
and intelligent in their proposal to
retain and increase it.We have shown that the mail or-
der houses are taking nearly \$2,000-
000 each year out of the state of Wis-
consin, of which approximately
\$200,000 is contributed by the terri-
tory contiguous to La Crosse. The
draft on our resources is too great,
particularly when it is comprehended
that it goes to institutions located
far from here that contribute not
one cent to the maintenance of our
schools, our roads, our municipal,
county and state government or our
charities and churches. The wealth of
the territory will not stand the drain
without becoming impoverished.La Crosse has the stores. When
you are tempted to buy elsewhere
change your mind. Come to La Crosse
and see if we have not told the exact
truth about the merits of La Crosse
stores.

OUR LAW'S DEFECTS

Recollection of the remarks made
here recently before the board of
trade relative to deficiencies in the
new Wisconsin law authorizing gov-
ernment of cities by commission ren-
ders of local interest a letter writ-
ten by George Thompson, publisher
of the St. Paul Dispatch, to the Mil-
waukee Journal, criticizing our com-
mission law. Mr. Thompson is afirm believer in commission govern-
ment, having been one of the
strongest advocates of the commis-
sion law recently passed in Minne-
sota, and now urging St. Paul to
adopt the plan permitted under that
law. Hence his criticism of the
Wisconsin law indicates no hostility
to the movement which he has be-
friended, and is directed, not at the
law, but at its defects.Mr. Thompson emphasizes some
objections raised by Prof. McGregor,
and some not discussed by the lec-
turer. He says:"While thoroughly committed to
the commission plan of city govern-
ment, we are far from convinced that
the provisions in that direction made
by the Wisconsin law would furnish
any genuine relief from the evils
of the existing system of partisan
rule in municipal affairs."The fatal defect, in our opinion,
is the omission from your laws of
the recall feature. We believe that
the most certain guarantee of honest
and efficient public service on the
part of the officials is the ever-pres-
ent prospect that they may be recal-
led, on petition of voters, whenever
their conduct of municipal affairs
becomes unsatisfactory to the men
who elected them to office."The objection to the absence of
the recall provision is emphasized by
the time limit placed by your law
on official terms. Without a recall
a bad mayor, elected for six years,
would simply be in a position to per-
petuate the very evils the recall sys-
tem seeks to eliminate. The election
of commissioners at different times and
for different terms of office is, we
believe, objectionable. The hold-
overs, however objectionable they
might be, would be in a position to
retrench themselves and make the
efforts of the newly elected commis-
sioners, or commissioners futile. The
commissioners should all be
elected at the same time. If they
make good, their re-election is as-
sured. If they fail, they should all
go out together."We are convinced that there
should be more than ten days' time
allowed to voters and taxpayers to
file their protests against ordinances
adopted by the commission. There
should be, we believe, at least thirty
or sixty days' time allowed for the
public to consider these ordinances
and determine whether they should
be accepted or submitted to a refer-
endum vote."The failure to include franchise
ordinances in the referendum pro-
vision is clearly an exemption in fa-
vor of the interests against which
the greatest complaint is made under
the old form of city government.
The people should be allowed to pass
upon every ordinance—or at least
the right to protest against it—that
transfers public rights to private cor-
porations. The abuse of the fran-
chise granting is one of the chief
causes for the adoption of the com-
mission plan and the recall system
in other cities."Other features of the Wisconsin
law agree generally with the com-
mission plan as it has been adopted
in other cities, but we are convinced
that the omission of the recall feature
and the exemption of the franchised
corporations from the operation of
the referendum make your commis-
sion plan law one of very doubtful
merit."

OF DENSITY AND THINGS

It seems that a reporter for the
New Orleans Item recently interview-
ed "Czar" Cannon as to his reported
stand that a tariff-reduction-as-per-
platform-pledges republican is not
a republican, but that a high tariff
democrat is a democrat, and that Mr.
Cannon did not dodge the inconsis-
tency of that position. This is inter-
esting, but to Wisconsin readers
there is something still less edifying
in the interview, which is in part as
follows:"Well," Cannon said, pausing to
spit over the rail, "Well, there were
seven senators and twenty congress-
men who were what you are calling
"insurgents." Either they were the
leaders of the republican party or
the leaders of the majority were the
leaders of the republican party. No
matter what a man may call himself,
his vote on a revenue bill makes him
what he really is.""But how about the democrats
who voted for the tariff bill? Are
they democrats or republicans?""They are protectionists. They
are protection democrats," said Mr.
Cannon."What do you think of Collier's
and its campaign," the reporter asked.
"Do you think there is any special
object in it?""This young man wants to know
what I think about Collier's," said
Mr. Cannon to Senator Stephenson of
Wisconsin, who had taken a seat at
the table. Senator Stephenson looked
at Mr. Cannon uncomprehendingly
and the speaker turned again to the
reporter."When a United States senator can
be fairly charged with stupidity, it
is a natural deduction that he was
elected for some reason other than
his attainments, for in any state
there are intelligent and honorable
men willing to devote their services
to the state.Just imagine a man too clumsy of
wit to get the drift of "Uncle Joe's"
remark about Collier's, being in the
United States senate! And in the
case of Isaac Stephenson, the usual
deduction just mentioned comes with
swift and accurate certainty. It is
that something beside his ability got
him the position. There are two
things in this case, the emblem of
one of which is \$, and the other of
which is a willingness to do any-
thing for an end. The difference be-
tween "Uncle Joe" and "Uncle Ike"
is all in the "noodle."

LIVE WIRES

Mrs. Emmeline Gould Pankhurst.

NEW YORK CITY.—The fight for
woman's suffrage is to be carried in-
to the American congress, if Mrs.
Pankhurst, leader of the militant suf-
fragists of Great Britain, has her
way. On her arrival here she was
greeted by a small but enthusiastic
group of admirers and supporters
and at once defended the militant
tactics."All great movements have been
worked out by violence," she said.
"The American people secured their
liberty by violence, so why not use
the house of commons to obtain
what we regard as our rights? The
ballot granted the women will make
them more intelligent, less self-en-
terred, and on the whole much better
citizens.""Don't you think that there would
be corrupt women politicians and wo-
men 'ward heathers'?" Mrs. Pank-
hurst was asked.She laughed outright. Then, after
a pause, said: "Well I don't think
it could make politics any worse, at
any rate."Mrs. Pankhurst declared that she
had been a suffragette as long as
she could remember. She had gone
to meetings in favor of the emanci-
pation of women when she was only
14 years old, accompanied by her
mother, who herself was an ardent
advocate of the cause.Mrs. Pankhurst will remain in the
United States until November 22.Mrs. Pankhurst is slight of stature
and has a wealth of brown hair,
which is just turning gray. She
looked a typical English woman and
was dressed becomingly in a dress of
dark material."I am coming to America," she
said. "To speak on the subject of
equal rights for women and to study
the situation in this country. I
think we are away ahead of you in
this matter."As she talked Mrs. Pankhurst dis-
played a little medallion she wore
and explained that it was a dis-
tinguishing mark worn by those Eng-
lishwomen who have been imprison-
ed for the cause."I suffered solitary confinement,"
she continued, "and had only one
hour of air out of 24. During the
other 23 I was confined in a lit-
tle cell eight by ten feet. I had cell
47 on the second floor of Holloway
Prison and I wore the regular prison
garb, too, but I did not bring this
costume to New York with me.""The movement is progressing sat-
isfactorily in England," she went on.
"We have pledges from practically
two-thirds of the members of Parlia-
ment to vote for us as soon as a bill
is prepared by the government. And
we expect sooner or later to compel
the government to introduce the bill.
Just when this will come to pass I
am not prepared to say."TO CURE A COLD IN ONE DAY

and father and son were very hungry.
The only things eatable on the table

SIMPLE REMEDY FOR KIDNEYS

A very simple and most effective
remedy for weak or deranged kid-
neys or bladder is as follows: Mix
one-half ounce Murax compound,
one-half ounce fluid extract Buchu,
six ounces good pure gin, and take
one to two teaspoonfuls three times
a day after meals. Any good druggist
will furnish or mix these ingredients.
This will quickly cure symptoms of
kidney or bladder trouble, such as
pains in the back, frequent or high-
ly colored urination, rheumatic pains
in the joints, soreness in the groin
or hips, dizziness, puffiness under the
eyes, etc. These symptoms are danger
signs and must be attended to
promptly to prevent dreaded chronic
rheumatism, Bright's disease or dia-
betes.Chronic Insomnia
And IndigestionThe One is Almost Always Associated
With and Caused by the OtherSleep has been fittingly called "tired
nature's sweet restorer." It is a
condition in which the involuntary
functions such as nutrition, cir-
culation, respiration, etc., go on as
usual, while the voluntary powers
are in repose, and the system un-
dergoes needed repairs. No one has
ever been known to live longer than
three weeks without sleep. It is as
necessary in physical economy as
food and drink.Insomnia or chronic sleeplessness,
is a symptom with which nearly ev-
ery sufferer from dyspepsia is an-
noyed, either constantly or at fre-
quent and irregular intervals. This
inability to sleep formally is a very
prominent manifestation of indiges-
tion, and exhibits itself in different
forms. In some cases sleep may
come at its accustomed time, but it
does not bring repose, and the person
awakens entirely too soon, and is
unable to fall asleep again. In oth-
ers, the victim lies awake practically
all night, tossing and rolling, and
finally drops in a troubled and un-
restful slumber at daybreak. Still
others, though they may apparently
sleep soundly, are annoyed with the
incubus, or nightmare, with its hor-
rors of overwhelming waves, falls
from precipitous heights and attacks
by infuriated and implacable mon-
sters.All these distressing symptoms are
traceable to an irritated and en-
feebled stomach, and the same is
true of grinding the teeth, and
twitching and jerking of the muscles
during sleep.Insomnia is rarely a disease by it-
self, but is nearly always a sym-
ptom of another disease, such as dys-
pepsia, and in treating this com-
plaint, many persons in their efforts
to "woo the god of sleep," resort to
the use of such hypnotics, sedatives,
soporifics and narcotics as the bro-
mides, chloral hydrate, Dover pow-
ders and even morphia.No greater mistake than this could
well be made, and the reckless use
of such drugs has caused many a sud-
den death, while in other cases, even
moderate use, has set up an incur-
able drug-using habit among those
who resorted to the use of "sleeping
powders."To cure insomnia or sleeplessness
the object should be to remove the
cause, and as dyspepsia is the under-
lying cause in a large percentage of
cases, no better or safer remedy can
be employed than STUART'S DYS-
PEPSIA TABLETS. By digesting
every particle of food in the stomach,
the active and exciting cause of in-
somnia is cut short at its source and
removed.These tablets contain only whole-
some ingredients, and there is no
danger of falling into drug-using ha-
bits from their use. Every sufferer
from insomnia should avoid the egre-
gious error of using hypnotic drugs,
as they never cure the trouble, but
only make matters worse in the end.Begin taking Stuart's Dyspepsia
Tablets at once, using one or two
after each meal, and the same num-
ber at bed time. It is also well to
have a box of these powerful diges-
tives close at hand during the night,
so that in case you are troubled with
dyspeptic-insomnia, uneasiness in
the stomach, or any other symptom
of indigestion, quick relief may be
obtained.Purchase a package from your
druggist at once for 50 cents, and get
rid of your insomnia and indigestion.

The Submarine

John W. Titcomb of the United
States bureau of fisheries said re-
cently of a fishing excursion:"I once made a fishing excursion
to a stream that flowed behind a
lunatic asylum. As I sat and smoked
on the bank, watching my cork, I
noticed a strange object floating
down towards me with the current.
I saw that it was a man. He had all
his clothes on, and he was swimming
in the strangest way. I verily believed
every part of him was submerged
but one nostril."Hi!" I shouted, "what are you
doing there?""He lifted his head from beneath
the surface, and then, before draw-
ing it under again, he snapped:"Sh-sh! Don't interfere; I'm a
submarine!"—Washington Star.

When Reed Would Shed Blood

Major F. A. Kendall, who was a
classmate of the late Thomas B.
Reed and fellow member of the boat
crew at Bowdoin college, tells this
hitherto unpublished bon mot by that
famous wit:Reed never forgave Senator Red-
field Proctor for delivering the Ver-
mont delegation to McKinley at the
national convention in '86, when the
Ohio man was nominated for presi-
dent. All the other New England
states held out for Reed and he felt
that except for Proctor's he might
have had a chance for the nomina-
tion.Major Kendall met Reed in New
York at the time of the Spanish-
American war, which the latter felt
to be one of the great diplomatic mis-
takes of all time. They started to dis-
cuss that topic."It's outrageous!" declared Reed.
"Our good American soldiers slaugh-
tered for the freedom of Cuba! Bah!
I wouldn't give one drop of American
blood for the whole island!"—he
paused for a moment and then added
dryly, "unless it was the blood of
Senator Proctor."—Cleveland Lead-

On a Tombstone

There is a small and narrow tomb-
stone in a churchyard somewhere
near Glasgow which used to bear this
inscription:

• JANET •

• MACPHERSON •

• She Was Thine •

The tombstone is getting worn
away, and some one seems to have
chipped it. It now reads:

PRESCRIPTION FOR LAME BACK

The following prescription will be
found to work wonders in curing
lame back and all kinds of rheuma-
tism, and restoring health and vigor.
The ingredients can be supplied by
any well stocked drug store and eas-
ily mixed:"One ounce compound syrup of
Sarsaparilla; one ounce Toris com-
pound. These to be added to half
pint of whiskey and used in table-
spoonful doses before each meal and
at bed time. The bottle must be shak-
ed well each time."Good results from this treatment
came after the first few doses.
This prescription was published
here last season and was used with
splendid results by hundreds of peo-
ple.It is cost per loaf—not price per sack—that inter-
ests you.There are plenty of flours cheaper in price than
MARVEL—but you will find none satisfactory
costing less per loaf.

"Not at once, for I came very near
having him thrown out of the house;
and I laughed at him about a jug
that was given to him on the train
at Kildare with a message in it for
papa. You know when you are gov-
ernor people always give your pres-
ents—that is, your friendly constitu-
ents do. The others give you only
unkind words. The temperance peo-
ple send you jugs of buttermilk on
board your train as you pass through
the commonwealth and others send
you applejack. Your brother gave
back the buttermilk and kept the jug
of applejack which had a warning to
father in its corn-cob stopper. I
thought it was very funny, and I
laughed at your brother so that he
was scared and ran out of the house.
Then afterwards I looked out of the
window of papa's office and saw Mr.
Ardmore sitting on a bench in the
state house yard looking ever so sad
and dejected, and I sent the private
secretary out to get him; and now
we are, I think, the best of friends,

of the realm of social impropriety
into the sphere of generous benevo-

seems distressed by the actions of
some of the others."

Mrs. Atchison sighed.

John Wachtre's Old German Hotel on North Side Is Robbed of Its Junk

JUNK MAN ARRESTED TODAY

Woe-stricken Parents, Big Sisters and Crestfallen Lads Are Taken Into Station

Because they broke into the old Gorman hotel at Hagar and Mill streets, belonging to John Wachtre, Saturday night, about twenty boys ranging in age from 10 to 16 years are confined in the city jail awaiting the disposal of their cases.

All the electric light wiring was taken out, beside brass fixtures and other "junk" that could be disposed of to a junk dealer named Sherman, who was also apprehended in the case and tried for purchasing stolen property.

The thieves were discovered and reported to the police department and Detective John Taylor and Patrolman Alois Yehle were dispatched to apprehend the youthful burglars. The greater share of the day was spent in rounding up the boys. They were taken to the central station, where they are still confined except for the few whose parents have made arrangements for them. This morning woe-stricken parents and older brothers and sisters appeared at the station in behalf of the youngsters, who for a moment had wandered from the straight and narrow path.

The boys were taken into Judge Brindley's court this afternoon.

WOMAN IS SHOCKED BY BALL OF FIRE

Mrs. C. Hammerberg Seriously Affected by Bolt of Lightning Yesterday

NARROW ESCAPE SAYS LUECK

Mrs. O. Brown in Same Rig Is Not Injured, But the Horse Is Dazed by the Shock

Mrs. C. Hammerberg, 1816 Wood street, was seriously shocked between 4 and 5 o'clock yesterday afternoon in the vicinity of Gund's brewery during the electrical storm when a ball of fire descended to the street directly in front of her horse. The animal was also badly dazed, although Mrs. O. Brown, 1701 Onalaska avenue who was driving, was not seriously effected.

The ladies had been in the country for the day and were driving back to the city when the storm came up. Near the brewery there was a flash and heavy clap of thunder and what appeared to be a great ball of fire dropped to the street within a few feet of their horse's head. The animal stopped short and seemed very weak, while Mrs. Hammerberg was so seriously effected she could scarcely speak or move. Mrs. Brown with considerable difficulty drove the stricken woman to the office of Dr. Lueck on Rose street, north side, and the physician declared Mrs. Hammerberg had had a very narrow escape from death. The horse is not seriously effected by the shock.

GOLDEN WEDDING IS AUSPICIOUS

Mr. and Mrs. Fred Schulze 1018 Denton street, entertained at the old Y. M. C. A. building Saturday evening, the occasion being the anniversary of their golden wedding. The feature of the celebration was the grand march, in which about 100 guests participated. Many handsome gifts were received by the couple. A bounteous feast was served to all the guests, no expense being spared to make the occasion a memorable one. After the celebration a flash light picture was taken of the entire group of guests.

DO PARENTS MAKE THE LAW BREAKER

Rev. G. W. Fogg Intimates Home Teaching Is Responsible for Crime

SUCCEED NO MATTER HOW

This is the Teaching that Is Making Selfish Ambition Supplant Altruism

"Get wealth and place. If possible with grace; If not, by any means. Get wealth and place."—Pope. Does this epitomize an accepted standard for effort, and a goal for latter day ambition and teaching which is tending to make criminals of children?

Rev. George W. Fogg, pastor of the First Tabernacle Baptist church believes it does. He believes an exaggerated suggestion by teachers and parents, and desire by the child to "get on" to succeed, almost regardless of the cost, is relegating altruism and helping to make criminals.

In a sermonette delivered to his congregation yesterday morning Rev. Fogg took up the question of "Who Makes the Criminal."

"In answer to this question there are some who would answer that he is made by the devil," he said. "If so it seems that the devil is more powerful than God is. The fact is that we are all made by God and we are so made as to have freedom of the will. And as Nature has made us so by natural conditions largely we are being moulded and shaped into some kind of a being either obedient to the best laws as the interests of man have determined that they shall be made, or else law breakers.

All Moral Criminals "A criminal is one who violates the law, either human or divine. Against God's law we are all criminals. No man is able to keep them. There is too much of selfish and evil inclination in us. The same thing is the cause of the violation of human laws for civic society. For the breaking of these I claim that someone is usually responsible. It may be more than one for any particular offense. Perhaps the same is true in the laws pertaining more directly to spiritual life.

"Some have made out good cases for hereditary criminality. Crime has been traced through families for many generations. Sometimes it is due to malformation of the human anatomy. Scientific study has taught that acquired characteristics are not transmissible until a person has been so steeped in those conditions that these acquired characteristics are almost second nature to one. It is demonstrated that even the child of the confirmed criminal can be saved for society by taking it from the presence of the parents at a very early date. This goes to show that crime is largely a matter of teaching. I know that at times a blow on the head so as to bring pressure to bear on the brain will produce crime if the blow is in the right place. But it has also been shown that these cures from operations have sometimes been merely a matter of hypnotism for the criminal.

Parents Make Some "Who makes the criminal? The parents sometimes make them. This I have just shown. Associates make them, sometimes. Hard laws and unfeeling and unthinking judges have made them. This is strongly brought out by Judge Lindsey in the current numbers of Everybody's Magazine in that awful story he is telling of the corruption of Denver. The making it evident to the child that he is a criminal and as such is being looked down upon by society is enough to make him turn his hand against society. The child should be corrected from crime by teaching him the duty between right and wrong and letting his tender heart respond to its own ideas of righteousness.

Teachers make criminals. Sometimes the school teachers in the public schools who are supported by the very government whose laws they are supposed to uphold. I do not believe they would do it intentionally. All honor to the teachers. They are among the noblest workers in this land. They are possessed with the spirit of altruism in a measure that is possessed by comparatively few others. I love the teachers for the sake of the noble woman who was my teacher in public school. But in some instances do they not teach crime? They implant in some, and the parents do so, too, the idea of 'getting on' in the world rather than the noble spirit of altruism.

Unfair Business Advantages "Now, crime is a willingness to disobey the laws of the land in order that one may get on in the world. Self in some way is glorified. The other man is gotten ahead of. An unfair advantage is taken. Now most people try to teach the children the noble spirit of altruism and of patriotism. Some teach with words and clearly show by deeds that they are desirous of getting on in the world, and are willing to do so by questionable methods. Crime against property always springs from the idea that men are living to get instead of to give. Children are sent to school that they may learn, not how to serve, but to get a living; they are taught thrift, not that they may have to

CLEARANCE SALE OF CHIFFONIERS—CHIFFONIERS

We have closed a deal with a large factory whereby we have purchased an entire line of Chiffoniers at an absurdly low price because of the factory moving its plant to another city. We will place these Chiffoniers on sale for one week only, beginning Tuesday morning, Nov. 9th, and closing Monday evening, Nov. 15th, at 10 o'clock.

These goods are on display in our east window and are the biggest values ever offered in La Crosse for the money.

The price alone will compel you to buy them. Every economical housekeeper should not miss this sale, as we will save you big money in every case. Here are a few of the many special prices:

Solid Oak Chiffonier having 5 large roomy drawers; extra well made and finished; a regular \$8.50 value, only **\$5.45**

Here is a winner—Just like the illustration; full swell front, elegant finish, 16x20 French pattern plate mirror, French leg, and drawers are all dove tail construction; a regular \$22.00 value; our special price **\$12.45**

Another big value in our No. 502 Chiffonier, extra large case and 5 deep drawers, full serpentine front and golden oak finish and large beveled mirror; a regular \$18.00 value. This week only **\$9.25**

We have just 14 other patterns equally as good as the ones we have quoted. Come in and see for yourselves. These goods must go to make room for our holiday stock, but remember they are on sale for just one week only, beginning tomorrow morning.

DON'T BE TOO FREE WITH KISSES, GIRLS

It's a Very Ancient Custom and Cannot Be Stopped, But Should Be Guarded—Ingham

An enthusiastic audience listened to Rev. A. V. Ingham's sermon at the Caledonia Street M. E. church last evening on the subject, "The Conventional Kiss." This is the second of a series of sermons the pastor is delivering, his topic next Sunday being "The Kiss of Love."

The pastor first went into the history of the kiss, showing that it existed from time immemorial. It was at one time used as a means of salutation between men, but later was restricted to greeting the fair sex alone either by man or woman. Rev. Ingham took the salutation down to the present day and showed how it is still used greatly and that to restrict its use would be an impossibility. He also cited instances in religious history of how the kiss was used as a means of deception, as while one man was kissing his enemy he was also inserting a knife in his vitals.

The pastor stated that it was impossible to define a kiss and he quoted from Oliver Wendell Holmes, "It's not as loud as a cannon but its echo lasts a long longer." As it is impossible to stop this means of salutation the pastor warned against its use in a promiscuous manner.

to address the meeting responded with the cheerfulness that bespoke her interest in club work. She spoke of the helpful and broadening influence of conventions both district and state and wished that every club woman could realize the benefits to be derived from same to such an extent that nothing could keep them away. It is expected that after this meeting and the district convention which will be held in this city next spring, the "convention bacilla" will grow so rapidly that this club will be very largely represented at the next state convention. The Twentieth Century club and the La Crosse Woman's club will jointly entertain the district convention. A short report of the Michigan Federation was read by Mrs. Cowles. The largely attended and successful meeting closed with Mrs. Vincent's paper on "Luther Burbank and his works," which was interesting and comprehensive. Mrs. Vincent told of Burbank's struggles and hardships in establishing himself as a creator of new forms of plant life, those which have added to the wealth of nations and enriched the dietary of the race and those which have made the world more beautiful, the new and improved forms of flowers.

The price places it within reach of all. No family is too poor to have an Edison Phonograph. No family is too rich to enjoy it. Nothing that money can buy will furnish a greater range of amusement for every dollar invested.

Mr. Edison intended that his Phonograph should be within reach of everyone. He wishes to see it in every home. Prices range from \$12.50 to \$125.00. No one can buy a Phonograph cheaper than you can. No one should pay more for it.

The Edison Phonograph in your home would give it something that it now lacks—entertainment of the best sort at a small cost, always available and suited to everyone.

Do not forget these things. Remember that they are found only in the Edison Phonograph, because no other sound-reproducing machine is so perfect and so faultless. None other is made by the inventor of the Phonograph idea as the Edison Phonograph is.

"A month ago a distinguished son of Illinois came to Iowa obviously angry and therefore in one of his hysterical moods. He made a speech ostensibly in defense of the rules of the house of representatives, but which was, in fact, an assault upon those who had opposed the republican majority in congress upon the tariff measure. Not content with burning us at the stake, he scattered our ashes to the four winds in order to make sure that we would be lost to the republican party forever and ever.

"Warming to his work, he made another speech a few days ago at Elgin in which he repeated in all the colors of his rainbow phraseology the denunciation of those who committed the horrid crime of voting against the tariff bill, and again consigned them to the lowest depths of democratic perdition; and then, to completely satisfy his lust for blood, he assigned to Senator La Follette and myself a superheated chamber in this region of the damned.

LOCKERS FOR 170 GOLFERS INSTALLED

Improvements at Country
Club Will Be Completed
in Two More
Weeks

Active work on the enlargement of
the locker room at the Country club,
which when completed, will double
its capacity, is now under way and
should be completed in about two
weeks.

The plans specify an addition
which will be about thirty feet long
and about half as wide. Entirely new
steel lockers will be provided and
two more shower baths will be added
making four baths in all. When com-
pleted the room will comfortably
hold about 170 golfers which is more
than there usually is present at any
one tournament.

In order to add comfort to the
room as well as usefulness, a large
fireplace will be constructed. This
will make the locker room more
cheerful especially on the dreary
days, when it is necessary for the
players to be inside.

The present season at the golf
links is now closed although there
will undoubtedly be a few more
games this season, especially on
Thanksgiving day. The past season
has been very successful with the
the one drawback of an inadequate
locker room. The directors at once
set to work to remedy this situation
and as soon as the season closed,
men were at work on the addition,
which when completed will give this
city one of the finest club houses in
the state. The locker room will have
all the up to date facilities of any
club house in the northwest. There
will be room for nearly 200 golfers
with a little crowding and this is
as many as will visit the links at any
one time. It was during the tourna-
ment days, during the past season,
that the room was crowded. When
the present improvements are com-
pleted, this feature will be removed.

man, superintendent of poor farm work.

"As members of the Woman's
Christian Temperance Union we de-
sire to extend to you our sympathy
in your recent affliction, and our
appreciation of your service in the
gospel temperance meetings at the
almshouse. The great effort you
have made to convey passengers to
these services has been gratefully
received, and may you be amply re-
warded for this by its being the
avenue to enrich and spiritualize the
lives of many persons.

"With gratitude and highest ap-
preciation, we are, very sincerely
yours, etc."

MOTOR MAGAZINE MENTIONS CITY

La Crosse is mentioned as one of
the centers of automobilism in the
first issue of the Wisconsin Motor-
ist, a new monthly magazine devoted
to motoring interests in the state and
published by M. C. Moore of Milwau-
kee. The first issue contains a pho-
tograph of Frank P. Hixon of this
city, first vice president of the State
Automobile association, a letter from
Mr. Hixon, wishing the magazine suc-
cess, a writeup of the La Crosse club,
and other items of interest to this
city. From the preliminary announce-
ment of the editor it is learned the
mission of the magazine will be to
advance the interests of motorists in
the way of legislation, good roads,
organization and other essential
means.

ORCHESTRA WILL COME IN MARCH

Arrangements are now almost com-

ENGINEER BREAKS HIP IN A WRECK

H. L. Rief Suffers Painful
Accident in Milwaukee
Yards at Portage
Saturday

Engineer H. L. Rief of the Mil-
waukee road, well known to all the
La Crosse division trainmen, had a
hip broken in a small wreck in the
yards at Portage Saturday.

Mr. Rief was in charge of the "old
line" way freight engine and was
backing down the main track prepar-
atory to coupling onto his train
which was made up near the ice
house. As his engine had cleared but
about eight feet of the main track,
passenger train No. 10 pulled into
the station in charge of Engineer
Daniel O'Leary and hit the freight
engine. Mr. Rief was the only vic-
tim of the accident which occurred
right in front of the yardmaster's
office. The engine and cylinder on the
left side was torn away from the
freight engine. The passenger engine
was but slightly damaged.

One story of the cause of the ac-
cident is to the effect that the crew
of the freight engine understood that
the passenger train was ten minutes
late and so of course thought that
they had plenty of time to get into
"clear" before its arrival. Instead the
passenger was right on schedule. The
passenger is due to leave here at
5:07 a. m. and the freight at 5:15
a. m.

Mr. E. F. Austin of Leon, Wis., is
a visitor here today. He came to see
his daughter, Miss Edith, who is

WEIGHTY SESSION OF BOARD TUESDAY

Successor May Be Chosen to
John Hauser in Office
of Poor Commis-
sioner

The La Crosse county board will
hold its regular November meeting
at the La Crosse county court house
tomorrow. The session will be called
to order at 9:30 by County Chair-
man R. W. Davis of Bangor.

The meeting session will be one
of the most important which has ever
been held in this county. It will prob-
ably last for two days as there is an
unusually large amount of business
to come before the board.

At tomorrow's meeting County
Poor Commissioner John Hauser
will in behalf of the com-
missioners present a written
report concerning the charges
brought against himself personally
and the department by Phillip Smith,
now deceased. Mrs. Phillip Smith,
and a number of other dependents
who claimed that the commissioner
showed brutality toward them when
they applied to him for aid.

It is said today that Mr. Hauser's
resignation will be requested by the
supervisors, who are already consid-
ering three candidates for the office.
The three men mentioned are William
Tisch of the south side, Solomon Burdick
of North La Crosse and William
Bradley of West Salem.

County Road System
The matter of a county system of
roads will be decided upon. The fight
between the city and country mem-
bers of the La Crosse county assess-
ment committee will be taken up and
a minority report and majority report
will be presented, thus throwing the
equalization of the assessment fig-
ures directly upon the county board.
The confirmation of Overseer Math-
ewson at the La Crosse county poor
farm will come up and a remon-
strance will probably be made against
his appointment by citizens who
claim that he is ineligible to holding
the office, not being a citizen of the
state.

A county physician will be elected
to succeed Dr. J. G. Egan, whose
term of office expires and who has
declared that he will not again be a
candidate for the office. Reports
from the county poor department will
be received and also from the county
overseer at the poor farm. One of
the items on the report, \$41.20 for
shoeing three horses at the farm will
be investigated as the committee on
poor and insane regard it as extrava-
gant.

The committee which investigated
the neglect of the Phillip Smith fam-
ily by the poor department will pre-
sent its report and ask for further
investigation. Much other business
will come up, including a recom-
mendation by the county committee
on grounds and buildings for exten-
sive improvements for the coming

WILL NOLLE ALL CASES BUT ONE

Circuit court for the November
term will open tomorrow morning.
Judge E. C. Higbee presiding. The
jury will be called for Wednesday.

There are but six criminal cases to
come up at this term of court and it
is said that all of these will be nolle
with the exception of the case of
Joseph Krieblich charged with stab-
bing Richard Keiser in a saloon in
the town of Shelby several weeks
ago.

Keiser is now confined at St.
Francis hospital, in a serious con-
dition as a result of his wounds. The
defendant is out on bail. It is an-
nounced by the district attorney that
at tomorrow's session he will ask for
a continuance of the case for the
term.

The civil calendar will be taken
up before the jury Wednesday.
There are a great number of cases
to come, and although the court has
but two weeks in which to complete
the calendar as many cases as pos-
sible will be disposed of at this term.

COMMISSION ON JOURNEY SOUTH

Senator Theodore R. Burton and
six other members of the National
Waterways Commission passed La
Crosse yesterday on the government
shot conservation policies for former Sec-
ondary cruise down the father of wa-
ters. They will go as far as New
Orleans on the boat. The cruise is
part of an extensive examination in-
to the water transportation problem,
both in this country and in Europe.
State Waterways Commissioner Ray S.
Reid, of this city, who has just re-
turned from an extended investiga-
tion tour over the water courses of
Europe is one of the party.

RELATIVES COME TO IDENTIFY HIM

Walter Jordan's remains will be
exhumed tomorrow from their rest-
ing place in Oak Grove cemetery and
St. Paul will be given a chance to
peer into the dead man's face to de-
termine whether he is a lost brother
who has been missing to the family
for some time.

Jordan's remains were found near
Medary, and it was decided by the
coroner's jury that death had been
caused by being struck by a train.
Today the dead man's sister and her
brother from Chicago arrived here
and received permission to have the
remains exhumed. James C. Jordan
will probably arrive here from St.
Paul tomorrow.

BERNARD C. TREPTE VICTIM OF CANCER

Ornamental Iron Worker Is
Dead After Year's
Illness with a Fa-
tal Malady

Bernard Carl Trepte, founder of
the B. Trepte and Sons' Ornamental
Iron Works in this city, for twelve
years a leading manufacturer of La
Crosse, died this morning at one
o'clock at his home, 721 South Sixth
street, of cancer of the stomach.

Deceased has been suffering with
the disease for the past year, and
for the last five weeks has been
confined to his bed critically ill.
Death came as a relief to the aged
man whose suffering toward the end
was intense.

Bernard Trepte came to La Crosse
twelve years ago from Milwaukee.
He was born in Dresden, Germany in
March, 1852, and was fifty-seven
years of age. In 1881 he was mar-
ried in Germany, and the succeeding
year emigrated to the United States
located in New York where he en-
gaged in his trade as an iron work-
er. The succeeding year he moved
to Minneapolis, remaining there
three years after which he located in
Milwaukee. In 1897 he moved
from the latter city to La Crosse and
has since conducted a growing busi-
ness in this city.

When the deceased opened his first
establishment here he moved into
the small building now occupied by
Fisher's restaurant, near the theater.
This soon proved too small for his
needs so a year later he leased larger
quarters in a building located
where the Erickson bakery now
stands. Steadily increasing business
made it necessary for him to move
again a year later, so he purchased
a large shop located at the corner
of King and Fifth streets. Five
years ago he disposed of this prop-
erty and removed to a location on
Main street between Front and Sec-
ond streets which he occupied until
a year ago, when again the increase
of the business compelled him to
seek new quarters. He then pur-
chased the building at 121 S. Front
street, which the firm now occupies.

Mr. Trepte is survived by his wi-
dow and seven children. The two
oldest Henry and Bernard are mem-
bers of the firm. The other five
children are Elizabeth, Minnie, Her-
man, Annie, and Elsie.

Funeral services over the remains
will be held at the late residence on
South Sixth street Wednesday after-
noon at two o'clock. Rev. Julius
Gamm of the German Lutheran
church will officiate and interment
will be made in Oak Grove cemetery.
Undertaker Frank Tillman has
charge of the funeral arrangements.

MOVES BOATHOUSE IN SEVERE STORM

County Clerk Charles H. Rawlin-
son removed his shanty boat from
Trempealeau to La Crosse yester-
day. The feat was accomplished in
the storm and high wind, with his
five horse power gasoline launch. At
times when the heavy wind caught
the boat house the launch rocked so
violently that the occupants feared
every minute would see it overturn-
ed. A landing was made here safely
although the fog was so dense that
it was almost impossible for the na-
vigators to discern the shore in places.

ELLIOTT ATTENDS BIG BALL MEETING

John A. Elliott, president of the
Minnesota-Wisconsin league left Sat-
urday night for Memphis, Tenn., to
attend the meeting of the National
Baseball Association of America.
While there he will take up the case
of Thomas Asmusson for the Eau
Claire team and several other mat-
ters. Nothing affecting the local ag-
regation will be brought up at the
meeting. Mr. Elliott will return on
Thursday.

STUDENTS TO DINE THE SUPERVISORS

An invitation will be extended by
the members of the La Crosse coun-
ty agricultural school faculty and the
student body to the members of the
La Crosse county board to visit the
institution on Thursday and take din-
ner with the students. The dinner
will be prepared entirely by the stu-
dents who wish to show the county
fathers that the cooking taught in
the domestic science department of
the school is palatable as well as
practical.

RESORTERS FINED.

Saturday was a big day with Po-
lice Justice Edward Cronon at his
court at the city hall. The justice
had eight cases and collected the
sum of \$145 in fines imposed. The
following cases were disposed of:
Fanny Jones, keeper of a "resort,"
\$52.50; Ruth Johnson and Emma
Anderson, inmates, each \$12.50;
Floyd Nichols, a frequenter, \$12.50;
Kit Bassett, using profane language,
\$27.50; Edwin Bursell, intoxicated,
\$12.50; Edgar Luton and Magnus
Lewiston, intoxicated, each \$7.50.

Mr. Carl J. Iverson of Whitehall,
Wis., is here attending the W. B. U.

At Irvine's
You will find the most exquisite
fans. Real lace with hand painted
medallions, carved ivory frames.
Just the thing for a Christmas
gift, from \$2 to \$12.

S.S.S. NATURE'S CURE FOR RHEUMATISM

In a disease so painful as Rheumatism, medicines containing opium
and nerve-quieting drugs are often used. Such treatment is dangerous
only because it frequently causes the sufferer to become addicted to the
drug habit, but medicines of this nature are always injurious to the system.
Rheumatism is a disease of the blood, and its cure depends entirely upon
thorough purification of the circulation. As long as the blood remains
saturated with uric acid, an inflammatory condition of the nerves, muscles
and tendons of the body will exist, and the pains, aches, soreness, and
feverish flesh of Rheumatism will continue. The one safe and sure cure
for Rheumatism is S. S. S. It is nature's remedy for this disease, made entirely
of the healing, cleansing juices and extracts of roots, herbs and barks from
the natural forests. S. S. S. does not contain anything that is in the slightest
way injurious to the system. It is absolutely and purely vegetable, and
free from opiates or sedatives of any kind. S. S. S. cures Rheumatism by
removing the uric acid from the circulation, it makes the blood pure, and
healthy so that instead of depositing sharp, uratic impurities into the
muscles, nerves, joints and bones, it nourishes every portion of the body
with natural, healthful properties. Book on Rheumatism and any medical
advice free to all who write and request it.

FARMER DROPS DEAD WHILE HUSKING CORN

SPARTA, Wis., Nov. 8.—(Special.)—W. Stark, living about 16 miles from this city in the town of Little Falls dropped dead Friday while gathering corn in the field on his farm. Stark was on one side of the wagon and his son on the other, when the son's attention was drawn by the little daughter, who accompanied them to the field, crying "Get up, grandpa, get up." He turned and beheld his father dead and the little girl tugging away at his hand in an effort to get him to arise.

The funeral was held Sunday from the Little Falls Lutheran church. Rev. Schmelling officiating. The deceased is survived by two daughters and two sons, all residing in the town of Little Falls. Stark's brother died a short time ago, falling dead at the supper table and a sister dropped dead in her doorway some time ago.

Caught in Illegal Trapping

Chet. Stevens, ex-register of deeds of Monroe county, was caught by Game Warden Mannel Friday in the act of trapping muskrats out of season and he was fined \$25 and costs by Justice Fisk. Stevens had 12 traps set. Mannel confiscated 22 muskrat traps in the Lemonweir river near Tomah.

Prisoner Escapes

John Bowler was arrested Friday night for leaving his horse standing all day without food and was fined \$5 and costs for drunkenness by Justice Dorrud the next morning. When the officer went to get Bowler the next morning he found the jail empty. Bowler having escaped with the aid of friends by tearing out iron bars over a transom. He was arrested at home. Certain parties who were seen hanging around the jail about midnight are under suspicion and arrests may follow.

IOWA SOLON HURLS DEFIANCE AT "JOE"

ringing in my ears I feel like a member of the fated brigade of which the poet sang:

AN UP-TO-DATE DRUGGIST

says it is surprising how many old-fashioned remedies are being used, which goes to show that it is hard to improve some of our grandmothers' old, time-tried remedies. For instance, for keeping the hair dark, soft and glossy, nothing equaling our grandmothers' "sage tea" has ever been discovered. Although, by the addition of sulphur and other ingredients, this old-fashioned brew has been made more effective as a scalp tonic and color restorer. Nowadays when our hair comes out or gets faded or gray, instead of going to the garden or garret for herbs and making the "tea" ourselves, we simply go to the nearest drug store and ask for a bottle of Wyeth's Sage and Sulphur. This preparation is sold by all leading druggists for 50 cents and \$1 a bottle, or is sent direct by the Wyeth Chemical Company, 74 Cortlandt St., New York City, upon receipt of price.

For sale and recommended by O. T. Erhart.

"Cannon to the right of them,

Senator Indulges in Sarcasm.

"It may be, however, that I can summon enough composure and calm my shattered nerves sufficiently to lay before you some suggestions which appear to me to be pertinent upon the issue which has thus been raised. Let it be understood, once for all, that we accept the challenge and are ready for the fight. Our struggle will not be to exclude anybody from the republican party, but upon the principle involved we ask no quarter and shall give none."

"It ought not to be forgotten as we proceed, and as we are looking into the right of republicans to bear that honored name, that together with another unfortunate insurgent whose voice, calling the faithful to republican prayers, has been heard from ocean to ocean in every campaign for a quarter of a century. I represent in the senate of the United States a state which has cast its electoral vote for the republican candidates for president for fifty-three years, and that I hold my place not by chance but through toilsome campaigns in which the opinions that were carried into my vote upon the tariff bill were proclaimed over and over again in every hamlet in the commonwealth."

"When I recall these long continued struggles against the forces embodied in the speaker of the house of representatives and in the men who in fact made the tariff bill what it is, and when I recall the outcome of these fierce controversies you will not think it strange if I resent these charges of infidelity and call for judgment."

Day of Judgment at Hand

"The day has come for an inquiry into the qualifications of a republican. I am willing to accept an arbiter, but it will not be Aldrich, it will not be Payne, it will not be Cannon. They all are republicans and I hope they will continue to be republicans. I assume, they voted according to their consciences; and while I differ from them materially and emphatically, I have no disposition to enter the business of eye-popping men from the republican party so long as they yield even a nominal allegiance to republican platforms and support republican candidates."

"I say of them (and I say it with the utmost good feeling for them personally) that the republicans who are in sympathy with the course pursued by the insurgents intend to take away from these men some of the power which they now exercise, and intend to reduce their influence to that point at which they will feel it necessary to consult rather than to command."

Appeal to Prejudice

"It will not avail Mr. Cannon and his associates anything to declare that we have joined hands with the democratic party, for every intelligent man knows that this is simply

an appeal to a blind passion and a senseless prejudice.

"The insurgents believe that the republican party is the best instrumentality to secure and maintain good government."

"They are proud of its history, they love its traditions, and I venture the prediction that in the campaign of next year their voices will be heard above all others defending its doctrines and sustaining its candidates."

"Their struggles will be within the lines, but they will not hide the truth as they see it, for they know that if the republican party is other permanently successful it must be faithful to its platforms, and must meet courageously and justly the new age of commerce and business with its new problems and questions. It can no longer be progressive in its platform and stand-pat in its congress."

"A few months ago I said that I was willing to accept an arbiter as to the republicanism of those who voted against the tariff bill, and I hasten to name the judge. I appeal to the national republican platform of 1903, and tested by the criterion of that instrument the republican voters of the United States will determine just as rapidly as they have the opportunity to do so whether our votes were in accordance with its declarations and pledges."

Aims Shaft at Speaker

"As reported in the Chicago newspapers, the speaker of the house, in his address at Elgin, asked this question: 'Are Aldrich and Payne with their associates, comprising the majority of the republicans in congress, the republican party, or are the insurgents the republican party?' The answer he made, either explicitly or implied, was that the majority of the republicans in congress was the republican party; that the insurgents had refused to be bound by the will of that majority, and therefore, they were no longer republicans."

"I freely admit that the insurgents had no title to speak for the republican party as a whole, and it gratifies me to know that they have never asserted such authority. I am however, astounded to hear so modest a man as the speaker of the house claim that the leaders who constructed the tariff bill and the majority which passed it constitute the republican party."

"I know that they are strong and do what they please without rhyme or reason, but I am sure that this is the first time they have become so intoxicated with their power as to imagine that they constitute the republican party."

Ten Million in the Party

"There is a republican party, and it is composed of something like 10,000,000 of men. They came together by their representatives in 1903 and they made a platform. Insofar as it related to the work of congress, it became the duty of every republican member of the senate and of the house to execute it; but to say that

because a majority of the republican members of congress were in favor of attaching certain duties to certain commodities and other members in a minority were in favor attaching duties to the same commodities, therefore the minority had rebelled against the party, is nonsense of so sublime a degree that it provokes not debate but derision."

"I understand perfectly that it would have been helpful to party harmony if we could have voted together; but that is not the question. The platform was for protection. All the republicans in congress were for protection; but the view of these high priests appears to be that if they thought that upon any given article protection required 50 percent and we thought the article would be amply protected with 25 percent, unless we voted for 50 we were no longer republicans. The whole proposition is so absurd that even the most rabid member of the triumvirate will not repeat it often."

Marvels at Audacity

"I marvel at not only the audacity but the madness which inspires the attack which has been made upon the insurgents, for if Mr. Cannon and his allies shall be successful in putting every man out of the republican party who would not have voted for the tariff bill had he been a member of congress he will have eliminated a majority of the republicans in every northern state from Ohio to the Rocky mountains."

"There need be no concern about the attitude of the insurgents and their friends. They will do their best to nominate candidates who believe in a progressive republican party. When they succeed they will rejoice because a step will have been taken in the path of reform."

"When they fail they will be republicans still, for if there ever was a time when there was absolutely no reason for transferring any branch of the government to democratic hands, this is the time."

"Individually I have high regard for the integrity and patriotism of many of the democratic senators and representatives in congress, but collectively they are more unfit to manage the affairs of a great country than ever before in the history of the organization. Nevertheless, we do not intend to accept as final the revision of the tariff against which we voted and we do intend to tell the people of the country from time to time why we could not and did not give the bill our approval. You will, therefore, I am sure, permit me to state the case from my standpoint."

Seven Years Campaign

"For seven years I have been insisting in every part of the United States that the import duties upon the chief competitive products were too high, and, being too high, should be reduced. The mere fact that the duties of the Dingley law had become excessive would not have been a sufficient reason for a revision of the tariff, unless there had been coupled with it another vital fact—namely: that in many of the most important fields of industry domestic production had been wholly suppressed or substantially impaired, so that prices were fixed not by the ordinary forces of trade, but by the arbitrary will of one producer, or a combination of producers."

"These two facts working together lifted prices to the highest level that an intelligent greed could approve. Therefore there arose from every part of the country an imperative demand for a revision of the tariff to the end that the menace of foreign competition might keep prices at the point of American cost, with a fair and reasonable profit added."

"It was not desired by those republicans who advocated a revision of the tariff that importations should be increased; but it was desired by them that the fear of importations should restrict the natural aversion to take undue profits where excessive duties made it possible to do so."

Platform Recognized It

"It was to meet this almost universal demand that the republican platform of 1903 was promulgated. The existence of the two facts which I have recited was recognized and for the first time in the history of our party protection was given an accurate definition. Without abating a jot or tittle of our devotion to protection as a policy, we gave the world and laid upon congress a criterion for the imposition of import duties. As we are trying to ascertain what a republican is and what he is not, I beg the privilege of reading in your hearing that paragraph of our platform which relates to protection:

"The republican party declares unequivocally for the revision of the tariff by a special session of congress immediately following the inauguration of the next president, and commends the steps already taken to this end in the work assigned to the appropriate committees of congress which are now investigating the operation and effect of existing schedules."

"In all tariff legislation the true principle of protection is best maintained by the imposition of such duties as will equal the difference between the cost of production at home and abroad, together with a reasonable profit to American industries."

Believes in That Platform

"I believed then, as I believe now, in this platform. I want every amendment offered and every vote cast by the insurgents tested and weighed by this declaration of the fundamental principle of the party organization."

AT ALL DRUG STORES

"I assert here as I shall assert everywhere that the insurgents honestly and faithfully attempted to apply the criterion, so clearly and emphatically stated, in all their amendments and in all their votes, and that the leaders of the majority, who are now questioning our republicanism, did not 'pay it the cold respect of a passing glance.'"

"In all the hearings before the ways and means committee of the house, the report of which constitutes ten large volumes, and in all the hearings of the finance committee of the senate, which were not reported at all, there was no attempt made to ascertain the difference between the cost of production at home and abroad of more than a dozen of the thousands of articles covered by the tariff bill; and in the few instances in which the difference was shown the pledge of the platform was either openly repudiated or silently ignored."

Cites Print Paper Situation
"I take for illustration common print paper. In a former congress and under circumstances which you will all remember, a special committee was appointed in the house to investigate the precise question made important by our platform. Your efficient representative, James R. Mann, was the chairman of the committee."

"With painstaking labor it explored every avenue of information. It made one of the most exhaustive and most intelligent reports I ever read, and the conclusion was that we could manufacture print paper in this country as cheaply as it could be manufactured in Canada, our competitor; but to cover all contingencies, the recommendation was that the duty be reduced from \$6 per ton to \$2 per ton."

"Notwithstanding the report the majority put a duty on print paper of \$3.75 per ton; and if it shall happen, as now seems probable, that the competing provinces in Canada are compelled to bear our maximum tariff, print paper will be required to pay a duty of \$12 per ton or more."

Iron and Steel Reduction

"As a further illustration I take the iron and steel schedule. It was reduced more generally and more radically than any other schedule of the bill. The average decrease of duties on tonnage steel was about 30 percent, but so far as the effect upon prices is concerned the duties might just as well have been raised 30 percent."

"It will not be forgotten that the only legitimate purpose of any reduction in steel products was to prevent our own manufacturers from holding prices at the point of inordinate profit free from the danger of foreign rivalry. Formerly the average duty on tonnage steel was \$15 per ton. It is now a little more than \$10 per ton, and it is still so high that (barring a few places on our western coast which can only be reached by domestic producers by long rail transportation) the United States Steel corporation, which dominates the market, can raise prices far above the level of 1908 without the slightest fear of importations."

"Not only so, but one steel product which has grown in recent years to a high place in the business, which bore a duty under the Dingley law of \$10 per ton, which ought to have been reduced to \$6 per ton, was, in fact, increased to anywhere from \$14 per ton to \$18 per ton. Those who buy structural steel will quickly discover the truth of my statement."

Coddle Lumber Industry

"Lumber, which in my judgment is produced in this country at a less cost than any other country in the world, is held under a slightly reduced duty for no other reason than that certain lake ports, among them Chicago, have the advantage of low freight rates from Canada and if it had been put upon the free list the railways would have been compelled to lower a little their rates from southern mills. But, as though it were necessary to atone for even the insignificant reduction made upon boards, the duties on shingles and sawed timber more than 50 percent."

"It was altogether right that lead bearing ores shall bear a duty sufficient to keep our own mines in operation, but who will defend the act of adding to the duty on lead ore, a duty on pig lead of more than the entire cost of reducing the ore to the finished product?"

"In cotton manufacturers, with rare exceptions, we increased duties which were already high above the test of the platform; and there was left untouched practically the woolen schedule, which everybody admits is indefensible before any intelligent tribunal."

Sneers Foil Honest Revision
"I have no heart to go further into detail. Suffice it to say that the insurgents during all the weary months of the session, day and night, were endeavoring to find what the difference in the cost of production was; and when they could not find it through their own investigations they asked those who ought to have the knowledge of it, and were usually answered with the sneer of conscious power or were rebuked because they were not willing to follow blindly an unauthorized leadership."

"I do not want it to be understood that the majority of the republicans in congress were consciously unfaithful to the pledge of their party. I do not think so. I do think, however, that congress had not the information that was necessary to enable those who believed in protection to apply to the doctrine as it was defined in the platform."

"We are not prepared for an honest revision of the tariff, and those whose duty it was to gather the information so that not only all members of congress but the whole country might have had it, failed inexorably in the performance of their duty."

"There never can be a genuine republican revision of the tariff until a body of intelligent men shall inquire into and collect the facts which relate to the cost of production at home and abroad."

"The subject has been lifted up from the realm of vague declarations into the region of scientific accuracy. It is impossible for individual members of congress to inform themselves with sufficient certainty upon the thousands of items which compose a tariff bill. The two committees of congress will not do the work, and therefore we must organize some other tribunal that will. Do not misunderstand me."

Congress Cannot Abdicare
"Congress could not if it would, and ought not if it could, abdicate or delegate its authority to fix duties; but before it can fix them fairly it must have the truth."

"It has been said that the insurgents have declared it to be their purpose to keep up an agitation for a further revision and they are censured as disturbers of the peace and quiet which business demands. In this respect I speak only for myself. I never have advocated a general revision of the tariff and I never will. It would be the extreme of folly for the next congress or any congress

in the near future to attempt to another tariff bill comprising an article of growth or manufacture, such a revision the temptation before a member of congress to for what he knows to be wrong, order to obtain what he believes to be right, is too strong for him nature."

"The crusade which I intend strengthen with all my power is a crusade for a tariff commission—permanent, dignified and independent tariff commission—a tariff mission that will gather tough facts as to the cost of products and lay them before the congress of the country."

"When it has done so upon a one schedule, if the duties are too either too high or too low in a schedule, then congress should sit up and dispose of it without possibility of trades or combinations. All other civilized commercial countries have adopted this or a substantially similar plan, and it is time that those who love justice and fair dealing shall insist that our government must do likewise."
